REDEFINING THE WORLD OF COLOUR

About

Founded in 1977, Crown Printing Centre has made a place in print world in the United Arab Emirates with the most advanced facilities at Abu Dhabi on a base of tireless customer-centric service and quality at affordable price. In thirty nine years, we have grown steadily with strong multinational workforce, sound pre-press, press and post-press infrastructure. An experienced team of employees working on regularly updated equipment, motivated by a closely involved, experienced management has allowed us to become the printing partner of choice for several leading corporates, government entities, oil & gas companies etc. in U.A.E.

Innovative demands has transformed the printing industry into a form of art than science.

FUNCTIONAL STRUCTURE

Infrastructure facilities

Pre-Press

Our talented in-house production team, which is continually exploring emerging trends in printing, uses state of the art technology at all levels. The pre-press facility consists of the renowned Heidelberg Suprasetter CTP, apart from an IBM and Mac trained workforce to ensure the smooth integration of pre-press and press. Our team of professionals keep themselves abreast of the latest trends in technological advances, thus making it easier and more efficient to complete cost-effective projects. Periodic upgradation of our facilities combined with requisite training of our employee-experts helps us provide cost-effective solutions to meet critical deadlines or changes.

The equipments that we use:

*Graphic Design - MAC & PC
CTP - Heidelberg Suprasetter*

Press

We take great pride in our quality, large capacity and quick turn-around capabilities. Our press division utilises proven technology and equipment to ensure that your finished products are of the highest quality. Our professional press-operators are masters at maintaining consistency and coverage, maintaining accuracy and meeting deadlines. Our team of professionals maintains equipment to ensure optimum efficiency and quality and is well-versed in pre-press and press technology.
